About the Department
The Department of Master of Computer Applications was established in the year 1997 and is the first PG programme started in RVCE. Currently, we offer one PG programme MCA and Research programmes viz M.Sc by Research and Ph.D. Degree in various specializations of Computer Applications, Affiliated to Visvesvaraya Technological University, Belagavi. The MCA programme received academic autonomy in the year 2016. The programme is accredited multiple times by National Board of Accreditation, New Delhi and currently has got five years accreditation till 2025–26. Till date, faculties have successfully executed projects, consultancy, and training from funding agencies and industries.

About the Conference
Critical thinking is an essential skill that should be looked into a multifaceted way. It is a highly desirable skill and plays an important role in education sector. It should be best conceived to excel and to be successful in any walks of life. Students with critical thinking skills become more independent and self-directed learners. In the context of NEP 2020, critical thinking can promote social transformation and democracy in Indian education. The teachers also should have solid grounding in critical thinking and also have teaching strategies essential to it. In order to develop a deep understanding of the foundations of critical thinking, a long-term approach to learning and applying those foundations in multidisciplinary areas like Science, Engineering, Humanities, Health care, Research, education etc., have to be addressed in a best possible way. So, the two-days national conference focus on critical thinking in the above said areas for faculty, students, industry professionals and researchers.

The expected outcomes of the conference are:

- To promote in defining and advancing the principles and best practices of critical thinking in education and society
- To enhance teacher’s ability to more substantively foster it in the classroom
- To establish rigorous standards of excellence in research findings
- To formulate well-reasoned scientifically feasible solutions by synthesizing multiple perspectives
